

Drake Memorial Library

March 20, 2014

Dear APT Committee,

I am writing in support of Kenneth Wierzbowski's renewal as a faculty librarian at the Drake Memorial Library.

Ken epitomizes collegiality and service in his generous sharing of his time and talents to the Brockport community. While Ken's plate is full with reference, systems and assessment work, he also finds time to help out colleagues in need. A sampling of the many ways Ken has helped me include graphic design work on a conference poster and other promotional material (<http://digitalcommons.brockport.edu/drakepubs/13/>), assistance with Digital Commons in numerous ways, and help with an audio digitization project during the summer of 2013. Most recently, he has been a great help with the Conversations in the Disciplines conference being hosted at Brockport on March 28, 2014.

Ken has taken lead on the 3D Printing and Scanning project we started last fall. He designed the request forms, put together a LibGuide, mentored the student workers and is an excellent troubleshooter when things go awry. He is submitting an application to facilitate a 3D technology faculty learning community.

Thank you for your consideration of Ken's renewal. Please feel free to contact me if you have any further questions or concerns.

Sincerely,

Kim L. Myers
