John,

I can't believe I forgot to include Bob and Ken! That is the problem when tech goes so well. We only remember those guys when it goes bad!

The College is saving a great deal of expense being able to supply the tech, cameras and IT feeds thanks to Bob and Ken. Am certain you are not paying them enough for what they do!

best,

MJ

You're welcome, MJ. I figured you were up early milking the cows (or having another coffee at McDonalds) in Penn Yan. So what the heck.

I concur with you about the "wonderful results" and FUN time yesterday. You take care of both the technical and the fun. Glad we are really first and not third—with the integrated event. Princeton and Binghamton ought to be grateful to be in our midst!

As for the budget—oh well, worth an investment especially to garner another CASE award. Thanks for mentioning the great staff—Rox's and mine—a team effort. Many other kudos noted the "behind the scenes people" who are worthy of attribution and praise so I am ccing them with the hope that Bob and Ken will also be conveyed this message.

See you in PY someday—more likely summer!

John
